# **GIANT ICEBERG**

Miles From Where Titanic

Went Down.

There is a towering iceberg, and in all likelihood a field of icebergs, directly in the summer lane of the trans-Atlantic traffic. The one sighted and plotted is 300 feet long and rises 90 feet above the surface of the sea. ts position when reported was within a hundred miles of the spot at which the Titantic went down.

### **WALL STREET**

Market closing-There was practically no change in market in late afternoon, but a firm tone was preserved. Recessions did not bring out stocks and the demand increased on every setback.

The Street was much interested in Senator Norris's admission that C. H. Probable Field of Them 100 Venner & Co. had instigated proposal for the investigation of New York Central combination. It was not believed that resolution would be strengthene by the admission.

Opening-There was a fair volume of business, but prices showed easier tendency. The street did not agree with the President's view of business News of this drended menace to navigation was brought to this port to-day by the British Admiralty transport Teakwood, which is engaged in carrying oil to British naval craft in Caribbean waters. Report of it was at once made to the United States Hydrographic Office and wireless notice was sent to the United States revenue cutter Seneca, which is en iceberg duty in the lane.

Capt. Albert Sinclair, skipper of the Teakwood, sailed from Pembroke, England, on May 15 and arrived to-day at Quarantine. He reported that day at Quarantine. He reported that ernment except such as he set up himself. Baltimore and Ohio was day, he was running westward in a dense fog, which providentially lift-ness.

Seaboard Air Line third week of May earnings increased \$5,292. From July 1 increase totals \$777,982 com-pared with previous year same to the watchful eyes on the bridge as feeberg scarcely more than a cable's length, 600 feet, away.

As the Teakwood was under reduced speed it was comparatively easy for Capt. Sincilair to avoid a cellialon and he stood off to the southward. The position in which the berg was sighted was latitude 41.57 north. longitude 49.15 west. This is at what is called the "turn." the spot at which the westbound Atlantic ships make a change of course to the southwest to make American ports.

"The berg we sighted," said Captain Sincilair, was an ice mountain. For Sve hours before we sighted it the temperature of the sea water dropped by degrees, going down from 45 to 36. This indicated to me that there must be other bergs, doubless a field of them, in the neighborhood. And this was at least theoretically confirmed by the fact that five hours after we passed it the temperature of the water did not return to normal."

Syrup of Figs."

Den't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stemach, liver and bowels are elogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, deem't cat, sleep or act naturally, has stemachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs" and in a few hours all the foul waste, the sour hile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit larrative," and mothers can rust easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given to-day saves a sick child to-morrow, but get the grauine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs." which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig S, rup Company." Hand back with contempt any other fig syrup.

### To the Intelligent Public---

Who have seen the wonder ul increase in value along the Subway in the Bronx. WHO KNOW IT MUST CONTINUE IN THE FUTURE Who should have common sense enough to take

advantage of it if they have a little money. In the last ten years you have seen a large part of the Bronx grow from vegetable gardens to a city of 640,000 people.

The building of one subway to West Farms has accomplished this.

In 1906 fifteen able, experienced men, who had made a large part of their fortunes by buying along the line of the city's growth, bought the Pearsall Property.

They knew by past experience they would make large profits by holding this property until the Subway was running.

They knew that the northward growth was interrupted by Bronx Park and the extensive grounds of Fordham College.

They knew this interrupted growth was bound to move eastward around Bronx Park and along Pelham Parkway.

The City authorities recognized this fact and are now building two subway roads to the Pelham Parkway district. Ten of the original purchasers (whose names were mentioned yesterday) have died, and their executors and heirs demand the sale of this property.

By all known methods we have endeavored to interest the public in this property and its CERTAIN INCREASED VALUE IN THE FUTURE. Attention has been called to the large profits made by investors of a few hundred dollars

in Bronx property. We have referred to the fact that all authorities agree that during the coming five years we will have good times.

DURING THE NEXT 18 MONTHS THE WHITE PLAINS EXTENSION OF THE SUBWAY WILL BE RUNNING.

We have shown what an important thoroughfare Pelham Parkway is to-day and how its VALUE WILL INCREASE IN THE FUTURE.

We have shown how money invested in the Bronx along subway lines has made 10% to 20% per annum, as against 31/2% to 4% given by the Savings Banks. We have called attention to the well known fact that if a man wants to make money he must look ahead a few years; how much better investment in the long run real estate is than Wall Street securities; how, in spite of the panic of 1907, real estate in the Bronx has kept ON INCREASING IN VALUE; and that now, when everybody wants THE PSYCHOLOGICAL TIME TO BUY.

We have shown what a splendid property this is for INVESTMENT OR FOR QUICK PROFITS.

In spite of all this, the public, owing to the hard times and other unfavorable conditions, do not seem interested, and in fact are peculiarly indifferent.

The Agents and Auctioneers have been instructed to go ahead and sell the property IN ONE DAY, IF POSSIBLE, WITHOUT ANY REGARD FOR THE PRICE IT BRINGS.

THEY ARE GOING TO DO IT WHETHER THEY GET \$25, \$250 OR \$2,500 A LOT THEY ARE GOING TO BE SOLD AND SOLD QUICK.

All this means that those who attend the sale instead of leaving the city will have a SPLEN-DID OPPORTUNITY TO PICK UP BARGAINS.

IT IS UP TO YOU TO SEIZE THIS OPPORTUNITY—TO TAKE ADVANTAGE OF IT—AND TO AVOID FUTURE REGRETS. IT'S GOING TO BE AN INTERESTING AUCTION SALE —COME TO IT—
